**Subject:** One change in EPA/NOAA's Initial Written Assessment under CZARA Settlement Agreement  
OR CZARA Initial Assessment Cvr Ltr Final 12-17-12 version 2.docx

Hi All,

There are a few words in the 4th paragraph of the CZARA letter that should be deleted, so please note that the following changes:

Without even draft IR-TMDLs, examples of safe harbor BMPs, or any further detail on how the IR-TMDLs would address landslide prone areas and road management concerns, the EPA and NOAA still do not have the information to support a determination regarding whether the IR-TMDL approach would: (1) enable Oregon to achieve and maintain applicable water quality standards, and (2) satisfy the additional management measures for forestry conditions in its Coastal Nonpoint Program. The EPA and NOAA therefore have concerns about whether the IR-TMDL approach would enable the State to demonstrate it can meet those goals and do so in a timely fashion.

Jayne, I made the changes in the letter which is ready to be sent to NOAA and HQ.
